

## Overview

Active Data Exchange provides a broad range of professional services to build an effective e-business presence, combining powerful information exchange technologies with valuable design and technical services to deliver an online presence that fits your business.

### **Consulting**

Our Project Consultants work with you to recommend the best solutions for your business needs. From project management to technical consulting, we maximize your web presence with practical, cost-efficient solutions tailored to your specific organization. Our talented staff shares their expert knowledge with you to reach your corporate objectives.

### **Technical Development**

Experienced technical analysts can build applications and solve problems that are practical and scalable to your current and future needs. We walk you through the advantages and disadvantages of technical decisions so that you make informed decisions. Our team is dedicated to understanding your business processes and collaborate with you to make sure you get what you expect.

### **Graphic Design and New Media**

Our graphics department incorporates a combination of rich content, easy navigation, online branding and strong business presence to deliver an effective web presence. Whether you need a cutting-edge design or a unique corporate identity, our graphics team will design a site tailored to your organization. Add appealing interactive elements to your site by including new media applications designed to make your site stand out. Our new media specialists can design and implement the right mix of animation and rich design to provide a memorable online experience for your business.
